Moderate income is between 80 and 50 percent of the median income. Low income is 50 percent or less of median income. Very low income is 30 percent or less of median income.

* These columns are for calculating the pricing for one, two and three bedroom sale and rental units as per N.J.A.C. 5:80-26.4(a).

**This column is used for calculating the pricing for rent increases for units (as previously calculated under N.J.A.C. 5:97-9.3 (Consumer price Index for All Urban Consumers (CPI-U): Regions by expenditure category and commodity and service group). Landlords who did not increase rents between 2015 through 2021 because of the lack of authority to do so, may increase rent by up to the applicable combined percentage including 2022 or 9.0% whichever is less in accordance with N.J.A.C. 5:97-9.3(c). In no case can rent for any particular apartment be increased more than one time per year.

*** This column is used for calculating the pricing for resale increases for units (as previously calculated under N.J.A.C. 5:97-9.3). The price of owner-occupied low and moderate income units may increase annually based on the percentage increase in the regional median income limit for each housing region. In no event shall the maximum resale price established by the administrative agent be lower than the last recorded purchase price.

Low income tax credit developments may increase based on the low income tax credit regulations.

**** The Regional Asset Limit is used in determining an applicant's eligibility for affordable housing pursuant to N.J.A.C. 5:80-26.16(b)3.
